Therapy Australia

SPEECH & LANGUAGE THERAPY

There is always a way to enhance your child's communication.

www.enhancespeechpath.com

Who We Are

We at Enhance Therapy Australia (ETA) are committed to delivering research-based early intervention and therapy services to children, and families.

Our goal is for children to take part in play-based therapy while developing their speech, language and communication skills. Sessions are also tailored around your child's interests and abilities.

We believe in holistic practice, liaising with parents, teachers and other allied health services.

Our Speech Pathologists are certified members of SPA and participate in ongoing professional development so that they are aware of the current research development. They all have Working with Children Certificate and Police Clearance Certificate.

BILINGUAL SPEECH SERVICES

We provide bilingual speech therapy for people from culturally and linguistically diverse (CALD) backgrounds in clinic or via Telehealth.

- We also offer services conducted **Mandarin, Bahasa Indonesia.**

SPECIALIST SERVICES

- Autism Services
- Meal time Management
- Oral Motor Placement Therapy
- Augmentative and Alternative Communication
