

Mobile Children's Physiotherapy

Little Skippers Physiotherapy

Little Skippers Physiotherapy is a new home visiting paediatric physiotherapy service for children on the Gold and Tweed Coasts. Little Skippers Physiotherapy provides assessment, treatment and equipment prescription for children who are self-managed or plan-managed NDIS participants or private clients (Medicare and Private Health Insurance rebates are available).

Why a mobile service?

Providing therapy in a child's natural environment helps them to feel comfortable, to engage well with therapy and therefore to make the best improvements. Also, a mobile service saves families driving and waiting time for appointments and allows siblings to be kept entertained at home so that parents can focus on their child's therapy. Lisa can also provide physiotherapy in your child's school, childcare or local outdoor space.

For the suburbs we cover please refer to our website: www.littleskippers.com.au.

Why Little Skippers Physiotherapy?

Little Skippers Physiotherapy is provided by Lisa Bellamy. Having completed her master's degree in Paediatric Physiotherapy in 2018, Lisa currently works part-time as an Advanced Practice Physiotherapist at the Queensland Children's Hospital. Over the last 14 years Lisa has held senior positions at Logan Hospital and in paediatric hospitals and clinics in the UK. Lisa is also a tutor for the University of Queensland physiotherapy programme.

Conditions we treat

Little Skippers Physiotherapy can provide tailored programs to children with a broad range of developmental, neurological or musculoskeletal conditions including children with complex presentations requiring equipment prescription.

Contact us

Please contact Lisa on 0434 680 251 or e-mail info@littleskippers.com.au.

We look forward to meeting you and assisting your family!

Lisa Bellamy, BPhy, MPhy (Paed)
