**We operate in Greater Metropolitan Melbourne**

LIFESTYLE COMMUNITY CARE is an NDIS registered service provider. We aim to understand the participants and match the support workers that are suitable to their needs. Our efforts are always driven in the direction of providing best services and help participants to achieve their goals. We aim at quality of services and continuous monitoring of your plans for better outcomes and to establish a good relationship between support workers and participants.

Lifestyle Community Care offers personalised and reliable support services under the NDIS. Our vision "Care that best suits your needs and available to you when you need it".

Lifestyle Community Care is committed to Person Centered Planning and aim oriented. With a combined 16 years of experience in management and leadership roles, we have the knowledge, resources and determination to put your NDIS Plan into action and deliver better and desired outcomes. Our commitment to you is responsive, tailored care, with experienced and reliable support workers. As you would expect, they provide best service.

Our daily activities services supports you to learn and complete every day tasks as per your NDIS plan. Our experienced and well-trained staff support you activities.

## **Other services**

- New applications to NDIS prospective participants.
- For existing applicants, assist getting support and funding for other eligible needs.
- **Plan Management and Support coordination:**

We have engaged industry experts to provide best plan management and support coordination services suitable for you needs and objectives. They are external and independent to support you, not us.
